Energy Star Dishwashers

Thinking of you

 **Electrolux**

Electrolux Commercial Dishwashers that have earned the ENERGY STAR® are on average 25% more energy-efficient and 25% more water efficient than standard models.

- ◆ Double skin construction with insulation preserves energy and allows for quiet operation.
- ◆ Low water consumption - 0.89 gallon per rack on the WT30 and WT65. and 0.4 gallon per rack on the WT44 and WT66.
- ◆ External detergent and rinse aid connectors help reduce chemical consumption.
- ◆ Low running costs. System minimizes water, energy and chemical consumption (saving up to 30% of water and 70% of detergent usage).
- ◆ Energy Saving Device (ESD on WT82 and WT105) recovers 10/12 kW of energy and reduces the humidity and temperature of the air existing, so less ventilation required.
- ◆ Operator comfort increased from less heat exposure.
