

# Introducing the Nieco *VELOCITY* Toaster:

## Superior Speed Meets Flexible Energy Savings

The Nieco *VELOCITY*<sup>™</sup> Rapid Forced-Air Toaster:  
*The Next Generation of Toasting Technology*

The Nieco *VELOCITY*<sup>™</sup> Toaster produces superior-toasting in a flash by efficiently converting waste heat to forced convection.

With all new Smarter Controller technology and *Next Generation* energy savings, the *VELOCITY*<sup>™</sup> is engineered to help you conserve and save 10–20% on energy use, without sacrificing rapid service.

### FEATURES

- High speed—perfectly toasts bakery products like bagels, bread, croissants and English muffins in just seconds, with 10% less energy consumption.
- Nieco's programmable touch screen Smarter Controller technology supports easy operation with advanced features that save and make you money.
- Programmable Low Energy Mode—reduce your energy use during off-peak service hours while still maintaining toasting output for an additional 10% energy savings
- Simple clean-up of crumbs and melted cheese with removable exit slide.
- Sturdy all stainless-steel construction; no quartz glass elements means a longer-life and fewer parts for replacement.
- Control and voltage indicator notifies if wall voltage is out of spec for the unit, to ensure optimal operation performance and prevent damage.
- Flexible control placement design allows for technician-assisted configuration on left or right of toaster to best suit your kitchen workflow.

NIECO *VELOCITY*<sup>™</sup>

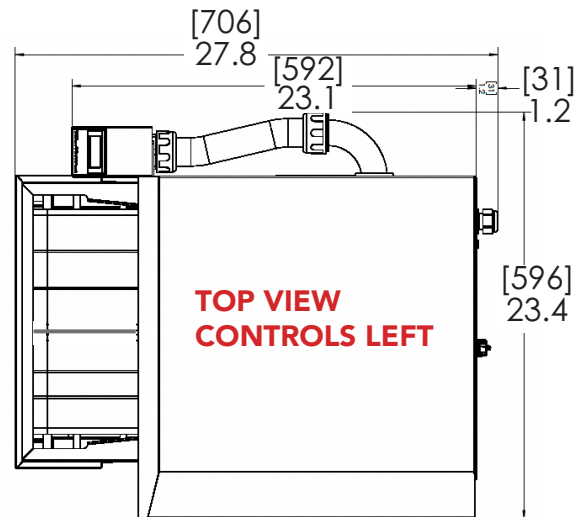

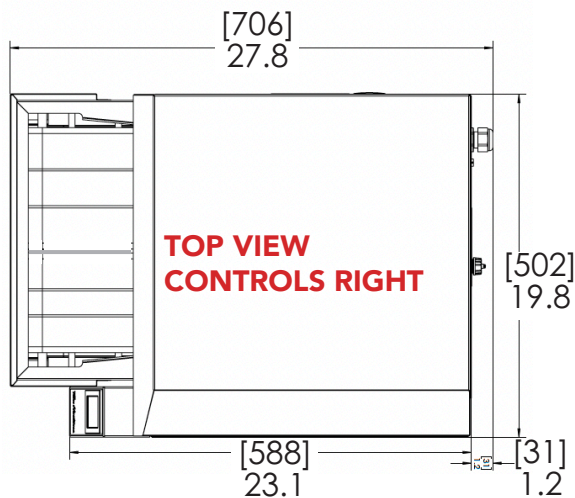

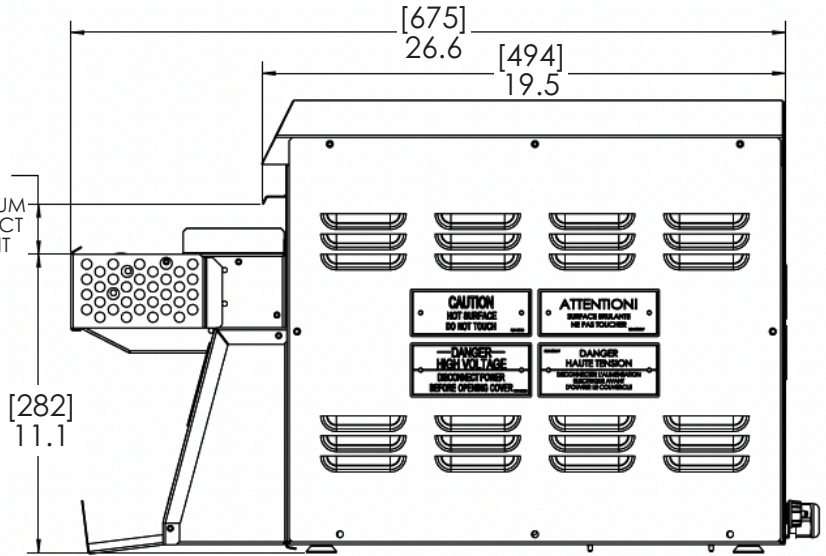

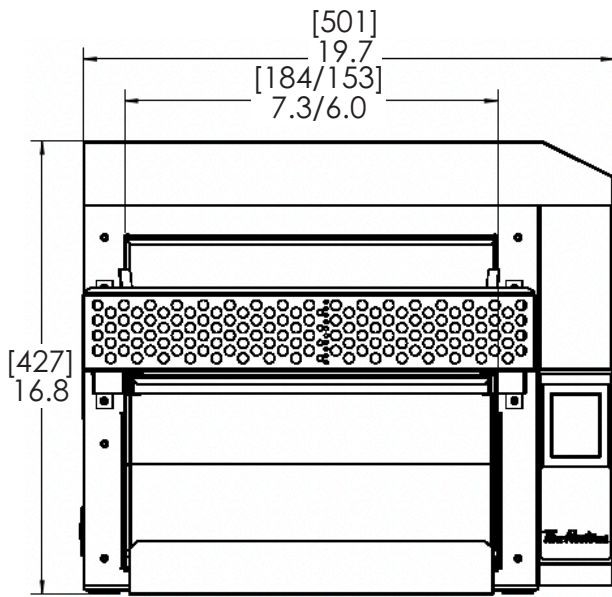

THE NEXT GENERATION OF TOASTING TECHNOLOGY

MODEL  
NUMBER 6350

# VELOCITY™

## DIMENSIONS

	Inches	mm
Length	26.5	674
Height	16.8	427
Width	19.7	501

Shipping Weight: 95 LBS, 43KG  
Counter Weight: 75 LBS, 34 KG

## UTILITIES

208V, 24A, 1Ø

Supplied with NEMA 6-30P, 30A, 250V 6' Power Plug
